“ *To the family of Devon I ask the father in his great glory to give you the power to be strong inwardly through his spirit. I loved Devon from the first time I met him in Virginia and became my great Nephew such a fine young man. He will truly be missed.*

“ *Devin, your kindness, your infectious smile, and your zany sense of humor are cherished memories that we can hold on to forever. You have touched the lives of so many. When I think of you, I remember how much you loved your family, summer camp and the hilarious plots and conversations you and Jay had in the back seat of the car. You shined bright on this earth, and I can only imagine how bright you shine in Heaven. One sweet day we will get to join you in the presence of God! Until then, we will cherish all of the fantastic memories that we have shared with you.*

Love and miss you.
