“ *So sorry to hear of Butch's passing. I just heard about it after the funeral. I always enjoyed seeing him and Lynn. We have had many conversations over the years. I know he missed Lynn so much. I find comfort in knowing they are now together, again. My sincerest sympathy to the family and I wish I had known earlier and I would have attended visitation. RIP my friend.*

“ *Uncle Earl was always quite and would always joke around. I loved to just listen to him and my mom talk about growing up and his life when they were young. His heart was always big.*

“ *Many memories of Earl growing up in Beebe Arkansas and attending high school with him. Our paths crossed a few times during our Air Force career. I remember waking him up in his bunk at Clark AB in the Philippines. He was permanently stationed there and I was TDY there for two weeks. Rest in peace.*
