“ *Twenty-five years ago, I went thru a divorce that nearly destroyed me. I had 3 young children and school was about to start and my children needed shoes. Danny use to work for my ex-husband and I don't know how he knew or why he did but, Garret Coliseum had all these venders there at wholesale price and he came to my mom's and took my 3 children and bought all 3 a pair of Rockport boots. My kids never had such nice shoes. I haven't seen him since but have thought of him many times.*

“ Those who knew Danny knew he had a 'way with words'... LOL. My brother-in-law was one of those animal whisperers... tho God knows he never whispered, EVER!

One memory that stands out the most for me was his deep love for animals. And he knew how much I loved Pomeranian puppies so he found and bought me my Sabel. The sweetest little multicolored pom ever.

Rest in peace man.

“ To a man I have known for 30 years. You will be missed brother. We had some times my friend, good or bad we still had respect for one another and to the woman in our lives. Thank God for them, for we never would have made it as far as we did without them. Gonna miss you dude.

See you on the other side brother.

“ Mr.Danny and Mrs. Kimberly have always been like family members to me when my Mom and me would come over when I was a kid. Loved having wrestling conversations with Mr. Danny. When ever I watch wrestling I'll think of Uncle Dano. Love and miss Mr. Danny.
