“ Jim Earl will be missed. I was lucky to have him work for me for many years. I knew it was going to be a good day if jimmy earls truck was in the parking lot (which was every day because he never missed work). He was the best millwright I ever had the pleasure of working with and I was glad to have him on my team. He was my right hand for many years but more importantly he was my friend. No matter what problem the day threw at us Jimbo could fix it. The one story I can share quickly happened at the mill one day. We had a filter unit down and it was a big job half the plant was down and we were really busy. I was wound up a little to tight as usual and let my aggravation get the better of me and I ranted and cussed about the machine for a minute or two while Jim Earl just stood there and smiled. He asked me " Boss...Are you thru now?" I said "I guess so why?" He said "Good if you're thru acting a fool and get outta my way I'll fix this thing. Now go on back up to your office and I'll call you when it's done." I couldn't help but laugh and sure enough he did what he did best and had us back running in no time. He had a calm way about him and I never saw him get mad or frustrated. He could put me in my place when I was always in a hurry and make me slow down. He was hard working and fun to be around and I will remember him always. Rest in piece my friend.
