*Steves first job was on a river boat on the Alabama river, he worked in construction with my dad. Then for Ronnie Smith Builders, then he opened his own business...*

*He was well known through Montgomery as one of the best in the business of renovations and homebuilders .His past times included ham radios, race cars that he tinkered on and fishing. He was intelligent with electronics and electrical work. RIP. I love you brother, I will always remember the good times we had growing up, and when you lived with me...Donna.*
